# WHAT MAKES TTI'S TANKS UNIQUE?

## WATER CARTAGE TANKS

Tank Sizes:  
**20 Litres to 17,000 Litres**

### KEY FEATURES

Extra thick tank wall structure with a load capacity of up to an enormous 1.3 Specific Gravity on all AquaTrans™

Exclusive, specially developed and formulated polyethylene powder incorporating the latest technology

Easy-to-read calibration on side wall of tank for quick measurement of contents (when sight level tube is fitted)

Specifically designed footings to enable easy mounting to any tray surface - mounting pins included.

Factory-fitted outlet with every tank

UV stabilised to withstand the elements; All tanks are cooked to temperature, not time

### Over 20 years specialising in the manufacture of quality water cartage tanks

TTi has over 20 years specialising in the manufacture of quality water cartage tanks. We do not dilute our focus by producing storage tanks and other roto-moulded products.

Did you know the DNA of every TTI tank is recorded? This combined with rigorous quality checks including ultrasound thickness testing and laboratory impact testing ensures that our clients are getting the very best available tanks on the Australian market, giving you peace of mind. Our unmatched tooling engineering is reflected in every moulded TTI Tank.

What's the Difference?

# AquaTrans™ AquaMove™

## Water Cartage Tanks

### AquaTrans™

There is nothing much in the way of a rotationally moulded polyethylene water cartage tank that compares with the TTi AquaTrans™ tank range.

A really heavy-duty tank with a 20-year warranty is just part of the deal. The AquaTrans™ is a premium product and is in a league of its own. This is the bees' knees!

### AquaMove™

Without any compromise, the AquaMove™ range has been introduced to be a player in the price sensitive end of the market.

With a slightly lighter design than the AquaTrans™ and a 15-year warranty, this is the everyday range.

### Flat Spray Tips

**110° wide, tapered flat spray angle** with air induction technology offers better drift management

Made of a **two piece UHMWPE polymer construction with VisiFlo®** colour-coding. UHMWPE provides excellent chemical resistance, including acids, exceptional wear life

Depending on the chemical, produces large air-filled drops through a **Venturi air aspirator**

Available in **seven tip capacities** with a wide operating pressure range: **15–90 PSI** (1–6 bar)

## Air Induction

### Angle Flat Spray Tips

**Tapered edge wide angle flat spray pattern** for uniform coverage in broadcast spraying. Large, **rounded internal passage** to minimize clogging.

Excellent **resistance to corrosive solutions**

**Superior wear** characteristics

**Larger droplets** for less drift; **15–90 PSI** (1–6 bar)

## Applications

### Twin Flat Spray Tips

**110° wide angle**, air induction, **tapered flat spray tip pattern** based on the **patented outlet orifice design** of the original **Turbo TeeJet® nozzle**.

**Patented orifice design** provides large, round passages to minimize plugging.

Depending on the chemical, produces large air-filled drops through a **Venturi air aspirator** resulting in less drift.

“

I can say that their 1000L slip on units are fantastic, and that the two we bought this year were instrumental in saving our farms and a neighbour's house in the Yelloon / Cobraball bushfires. When I ordered our second unit I considered it as cheap insurance!
